

# CHECKLIST APPLICATION FOR BUILDING PERMIT – UNCERTIFIED (BA2)

A BA2 Uncertified application is used when you have prepared all the documentation for a Building Permit Application.

It is used for simple applications or when you have a comprehensive knowledge of the Building Permit process and the documentation that will be required.

The Shire of Chittering Building Surveyor will use the information and documentation you have provided to prepare a CDC (Certificate of Design Compliance) and will then issue a Building Permit (BA4).

The Shire of Chittering does not provide a consultancy service to assist with the development of the documentation. A BA2 can be used for the following Classifications of Buildings under 500m<sup>2</sup>:

- Classification 1a, 1b, 2 and 3 (Residential)
- Classification 5, 6, 7a, 7b, 8 and 9b (Commercial buildings)
- Classification 10a, 10b and 10c (Residential Non-Habitable)

Prior to lodging a building application, please ensure that all other relevant approvals have been obtained such as planning approvals and health approvals. Applications that are incomplete or are missing these other approvals may be returned to the applicant. Please note that depending on the development, you may be required to provide additional information.

### **APPLICATION FEES**

The fees for your application are calculated on the cost of the development. Developments under \$20,000 will need to pay the Building Services Levy and the Certified Building Permit Application fee. Developments \$20,000 and over will need to pay an additional fee to the Construction Training Fund (CTF) called the Building Construction Industry Training Fund (BCITF) Levy which is 0.2% of the development costs.

### **SUBMISSION**

Complete applications can be submitted to chatter@chittering.wa.gov.au.

6177 Great Northern Highway PO Box 70 Bindoon WA 6502 www.chittering.wa.gov.au

**CHECKLIST** 

## **APPLICATION FOR BUILDING** PERMIT – UNCERTIFIED (BA2)
